

## Just Car Insurance Discovers Young Adults Love to Gamble

Melbourne, (DATE) - Research\* conducted on behalf of Just Car Insurance revealed that one third of young adults in Australia enjoy gambling, in a variety of forms.

The survey of Australians aged between 18 and 25 years showed that pokies are the most popular form of gambling for this age group (46%), closely followed by the casino (25%) and betting on horses (17%).

"It is fun to have a punt on the Melbourne Cup, but this new research reinforces the value of educating young adults in Australia about responsible gambling and money management," said Andrew O'Hara, National Manager of Just Car Insurance.

"Young Australians also gamble with their cars and their lives by not taking out car insurance. Just Car Insurance gives young people peace of mind in the knowledge they are covered if they have an accident."

While the survey results found young adults in Australia love to gamble, 55 per cent worry about their financial situation and want to manage it more effectively. Just Car Insurance recognises these concerns, offering ad-justable annual premiums to enable effective financial management.

Just Car Insurance conducts regular national research, in order to gain insights into the attitudes, aspirations and experiences of young Australians.
